

FoodScience Corporation was founded in 1972 by the Orlandi Family. Three generations of the Orlandi family have dedicated their life's work to providing exceptional and innovative supplements for the health and well being of people and their pets.

Food Science Corporation maintains rigorous quality assurance standards. Raw materials and finished products undergo analytical, organoleptic, and physical standard tests. Strict Quality Control ensures compliance with product specifications throughout all stages of manufacturing. Good Manufacturing Practices (GMP), Good Laboratory Practices (GLP), and Standard Operating Procedures (SOP) guarantee product quality. FoodScience Corporation is awarded an A compliance rating from the NNFA's 3rd party GMP certification program.

FoodScience Corporation continues to add innovative, condition specific formulations to their line which keeps them on the cutting edge of the nutraceutical industry, meeting the demand of savvy health conscious consumers and health care professionals for top quality products. Food Science of Vermont has been an educational resource for consumers and health food retailers for 33 years. It is their intention to expand nutritional awareness through personal customer service and product information literature describing the science behind their specialty formulas.
